Tip #1 : Adding white to your mix will accentuate the other colors when they are combined and melted together. It is also a great way to make transparent (T) colors pop!

Tip #2 : Our artists suggest Including both transparent (T) and opaque (O) colors in your mix.

Wine Red | T

Blush | O

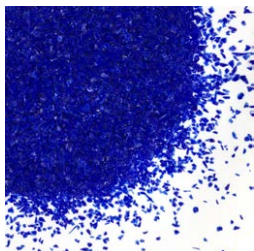

Clear Gold | T

White | O

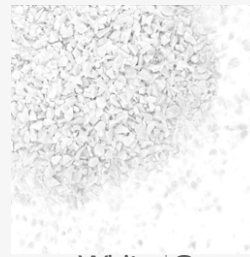

Transparent colors can meld together creating a muddied effect. Opaque colors are often more visible. This is important to consider when choosing your colors.

Royal Blue | O

Mandarin | O

White | O

Tip #3 : Colors of high contrast can work well if they are supported by accent colors such as white.
